EDUCATION

Vellore Institute of Technology, Bhopal <i>Integrated MTech in Computer Science and Engineering - Artificial Intelligence</i> <i>Cumulative CGPA: 8.32</i>	Bhopal, Madhya Pradesh <i>Expected May 2026</i>
Tagore Public School <i>12th CBSE Board: 88.20%</i>	Jaipur, Rajasthan <i>March 2019 – March 2020</i>
Tagore Public School <i>10th CBSE Board: 92.00%</i>	Jaipur, Rajasthan

CERTIFICATIONS

- Computer Vision - VITyarthi
- Applied ML in Python - Coursera
- Cloud Computing - NPTEL

TECHNICAL SKILLS

Python, Java, SQL, Office 365

CO-CURRICULAR EXPERIENCE

AI Trainer — Freelancer <i>DataAnnotations Tech</i>	Jaipur, Rajasthan (Remote) <i>October 2024 – Present</i>
---	---

- Conducted comprehensive testing of LLM models across 200+ test cases from diverse domains, including brainstorming content, extraction, data generation, code generation, and math solving.
- Performed multilingual testing and evaluation across 5 parameters and in three languages, including English, Hindi (Devanagari), and Hindi (Latin), to enhance AI model localization and performance.

PROJECTS

Crime Data Analysis and Prediction <i>Team Project</i>	Bhopal, Madhya Pradesh <i>May 2024 – August 2024</i>
--	---

- Engineered end-to-end data pipeline for a 4,91,007-record crime dataset: cleaned and imputed 6800+ missing entries, parsed and extracted 7 temporal features, and encoded 12 categorical variables using pandas and NumPy, reducing preprocessing time by 30%.
- Applied advanced clustering techniques (K-Means, DBSCAN, hierarchical) at scale—over 4,90,000 samples—to uncover 8 high-risk crime zones and synthetic features for model input, leveraging scikit-learn to automate hotspot detection.
- Built and evaluated 4 ML classifiers (GaussianNB, Decision Tree, Random Forest, Logistic Regression) with stratified 5-fold cross-validation; Random Forest delivered top performance (83% accuracy), a 20% uplift over the naïve baseline.

Crop Health Detection using Artificial Intelligence <i>University Level Project</i>	Bhopal, Madhya Pradesh <i>January 2024 – April 2024</i>
---	--

- Implemented an AI-driven system to assess sugarcane crop health using advanced machine learning techniques, integrating 4 different models: DenseNet201, CNN, VGG19 and ResNet50.
- Achieved 92% overall accuracy in detecting and classifying crop conditions, including disease, pest infestation, and nutrient deficiencies, by leveraging deep learning architectures.
- Reduced operational costs for farmers by an estimated 30% through accurate early detection of diseases and targeted resource application.
- Collaborated with a team of 10 developers to develop and deploy a scalable AI solution adapted to sugarcane crop and geographic regions.

EXTRA CURRICULAR ACTIVITIES

Vice President <i>Android Club, VIT Bhopal</i>	Bhopal, Madhya Pradesh <i>June 2023 – May 2024</i>
--	---

- Led 10 teams (SDC, Android, Event Management, Design, Operations, Finance) to organize 7 events, boosting student engagement by 1500% and mentoring 80+ club members to improve technical skills and communication.
- Streamlined workflows for 20% higher efficiency and implemented feedback loops to enhance event quality and relevance.

Discipline Committee Member <i>AdvITYa Annual Fest, VIT Bhopal</i>	Bhopal, Madhya Pradesh <i>February 2024 – February 2024</i>
--	--

- Managed discipline and coordinated logistics for Advitya Fest, which hosted 2500+ student participants and 50+ events across university clubs.
- Co-ordinated closely with faculties to ensure smooth execution, contributing to a well-organized and engaging festival experience.

HOBBIES & INTERESTS

Cooking — Space Enthusiast — Game Development — 3D Animation
