SKILLS

Programming Languages and Tools: Python, SQL, Microsoft Copilot, Claude, n8n, Docker

Technical Skills and Technologies: Generative AI, Deep Learning, LLMs, RAG, Prompt Engineering

Soft Skills: Communication, Leadership, Remote Collaboration, Teamwork

EXPERIENCE

Multi-Modal AI Trainer

Remote

Alignerr Ops

February 2025 – Present

- Created and evaluated 100+ linguistics, 40+ coding, and 30+ multi-modal tasks (audio, video, RAG) using Python and Labelbox, improving RLHF dataset quality for multi-language LLM training in a global team.
- Conducted reward modeling and feedback segregation, resolving annotator queries to ensure timely, high-quality data delivery for ongoing internal multi-modal AI model evaluation.

AI Trainer

Remote

DataAnnotations Tech

October 2024 – March 2025

- Evaluated Large Language Models across 700+ cases in content generation, extraction, and code, supporting 500+ hours of model improvement and benchmarking.
- Led multilingual LLM testing (English, Hindi Devanagari, Hindi Latin) across 5 core metrics, enhancing localization and reducing model bias.

EDUCATION

Vellore Institute of Technology, Bhopal

2021 - 2026

Integrated MTech in Artificial Intelligence

CGPA: 8.65

Relevant Coursework: Machine Learning, Deep Learning, NLP, DBMS, OOPs

PROJECTS

AI Cost Optimization Advisor

Bhopal, Madhya Pradesh

Personal Project

March 2025 – July 2025

- Deployed a 5-agent system for enterprise AI maturity assessment across 15 KPIs, achieving a 40% increase in recommendation accuracy and cutting evaluation time.
- Engineered an ROI engine with 4 core dimensions(profile, usage, pain points, objectives) generating strategies that projected 30-40% cost reduction in AI tool usage.

MindFulAI: Therapy Bot

Jaipur, Rajasthan

Personal Project

August 2024 – February 2025

- Built an AI therapy platform using Mistral 7B and PEFT fine-tuning on 50,000+ conversations for robust, empathetic responses.
- Designed advanced prompt frameworks and guardrails, raising response quality by 35% and reducing harmful outputs by 90%.

AutoEDA: LLM-Powered EDA

Bhopal, Madhya Pradesh

Personal Project

March 2024 – May 2024

- Developed an LLM-integrated EDA assistant using LangChain, Groq API (LLaMA3-70B), and PandasAI for automated analysis and natural language querying.
- Reduced EDA time by 70% by enabling natural language querying of data, automated generation of 9 chart types, and LLM-powered pattern identification.

CERTIFICATIONS

Oracle OCI - Generative AI Professional

GeeksForGeeks Product Management Certification

Certified AI Trainer - micro1

LEADERSHIP AND ACTIVITIES

Vice President, Android Club – Led team management, event execution, workshop delivery, and collaborations across 10+ major initiatives.

Technical Team, Hindi Club & Creative Team, AI Club – Managed technical setups, graphics, and outreach for inter-club events and hackathons.

Research Thesis: Self-Evolutionary Coding Agents – Building autonomous systems that modify/evaluate their own code.
